AMC G-3 PRs - Jeff Bepko

Transition Workshop 28 May 2003

# Summary

- **Summary of MS3 Open PR's:**
  - ▶ Priority 1 **Emergency:** 0
  - ▶ Priority 2 Urgent: 3
  - ▶ Priority 3 Routine: 0
  - ▶ Priority 4 Low: 1
- **Fix Applied Pending Validation:** 0
- **Fix Scheduled:** 2
- **No Fix Date, Under Review:** 2

# DAAS EDITS

- **Problem Number:** PR 3124
- **Priority:** 2-Urgent
- **System:** DAAS
- **Description:** Current DAAS edits of Army requisitions are causing double billing and duplicate shipments
- **Circumstances when problem occurs:** Transactions that are incoming to/outgoing from CCSS
- **Organizations Impacted:** DAAS, IMMCs, LOGSA
- **Impact:** With double billing and duplicate shipments occurring; rejected post-post requisitions are causing imbalances of asset posture
- **Mitigation until fixed:** None
- **Status:** AMC will staff out NAMI's recommendations to IMMCs, DMs, LOGSA, and DAAS for review
- **Projected/Actual fix date:** 20 Jun 03

# DIC BEW and AE-CX Status

- **Problem Number:** 3125
- **Priority:** 2-Urgent
- **System:** # AMC DCSLOG
- **Description:** DIC BEW and AE-CX status transactions
- **Circumstances when problem occurs:** If a modifier transaction passes to DAAS or CCSS and the change results in an invalid condition the requisition is cancelled with a status code of CX
- **Organizations Impacted:** Impacts Army installation O&M funds
- **Impact:** If the requisition was initiated in a different fiscal year than the modifier the funds are lost to the installation
- **Mitigation until fixed:** Some transactions may meet the current requirements for re-utilization within ISB so funds are not lost
- **Status:** Need final concurrence from Army before regulatory guidance is changed
- **Projected/Actual fix date:** TBD

# PROCESSING A4s/A3s from DLA

- **Problem Number:** PR 3152
- **Priority:** Urgent
- **System:** CCSS
- **Description:** DLA is processing A4s prior to implementation of Lateral Redistribution and sending A3s to other Army IMMCs
- **Circumstances when problem occurs:** The Army ships and bills NAMI and sometimes DLA also bills NAMI; at times DLA sends NAMI and SARSS a C\* status and on receipt of this status CCSS deobligates the funds then DLA changes the NSN and forwards the A4 to the Army SOS
- **Organizations Impacted:** IMMCs
- **Impact:** There is a severe impact on the financial records which is causing NAMI to be billed erroneously and sometimes billed twice
- **Mitigation until fixed:** None
- **Status:** AMC notified DA on 20 May of recent activity. DA confirmed this processing is not authorized and is currently coordinating with DLA
- **Projected/Actual fix date:** TBD

# Backup

***ESSENTIAL IN PEACE, INDISPENSABLE IN WAR***

# NOT COUNTING RONS OR DONS IN ~~MILSTEP~~

- **Problem Number:** PR 3093 (ECP ASIN: AMC200306901 - Steps 1-3)
- **Priority:** 4-Low
- **System:** MILSTEP
- **Description:** During development of SSF MS3 business processes, a decision was made to exclude RON/DON transactions from MILSTEP. The exclusion of counting either RONS or DONs in MILSTEP disables the MILSTEP
- **Circumstances when problem occurs:** The loss of demand/backorder visibility continues due to current program logic in APPL 509, Document Control File Surveillance, excluding RON/DON transactions
- **Organizations Impacted:** IMMCs, LOGSA
- **Impact:** MILSTEP is not accurately tracking key AMC business metrics; e.g. Stock Availability and backorders, understates demands, and is not in sync with requirements computations
- **Mitigation until fixed:** None
- **Status:** Step 1 - on schedule
  - **Step 2 - Tiger Team discussed pros and cons with AMC on 21 May 03;**

**AMC will issue direction in MILSTEP changes.**

- **Step 3 - AMC, IMMCs, LOGSA will coordinate implementation**

**Projected/Actual fix date:** Step 1 - 31 Jul 03; Step 2 - 30 May 03;  
Step 3 - 30 Jun 03
